

The trouble began when miners objected to being paid in Polish marks, hitherto having received their wages in German currency. They overpowered the police, and when soldiers with machine guns arrived the mob stoned them.

The soldiers fired and numbers of persons fell. The mob scattered. Military reinforcements arrived and order was restored.

CANADIANIZATION IS GREAT TASK

Bishop de Pencier Addresses Association of Canadian Clubs

Hamilton, Sept. 12.—C. R. McCullough, father of the Canadian Club, and Bishop de Pencier, New Westminster, told the Association of Canadian Clubs at its conference here to-day that there should be a distinct celebration of Armistice Day; that it was too important to be merged into another holiday. The matter was referred to the resolutions committee.

Bishop de Pencier spoke on Canadianization. He said that in many towns in Western Canada English was not spoken; the people were ignorant of our customs and knew nothing of our flag. The situation would soon spread to all Canada, was pressing in British Columbia, where half the population of many towns was Japanese or Chinese.

One hotel was Chinese who hired white men to work for them. He could not paint the menace in too dark colors. It was necessary for Canada's welfare not to allow any more Orientals into the country than we could Canadianize.

"Unless we are willing that our sons and daughters should marry Chinese and Japanese, we have no right to admit Orientals without number. Our motto for immigration should be that they must be white; that they must be Christian and British," he declared.

He said that the British flag was very often used as a flag of distress, that it was often flown upside down. Turning around he discovered that the flag on the platform was flying upside down.

MITCHELL GETS VERDICT

Milwaukee, Wis., Sept. 12.—Pinkey Mitchell, Milwaukee, was last night given a decision over Tommy O'Brien, of California, by a majority of newspaper critics at the ringside at the end of a ten-round bout. The boxer was light-weighted. One paper credited O'Brien with a shade decision.

He said that the British flag was very often used as a flag of distress, that it was often flown upside down. Turning around he discovered that the flag on the platform was flying upside down.

He said that the British flag was very often used as a flag of distress, that it was often flown upside down. Turning around he discovered that the flag on the platform was flying upside down.

NAVY LEAGUE TO WELCOME CHIEF

President Sam Harris Due Here on September 28

Arrangements for the reception of Dominion president, Samuel Harris, of the Navy League of Canada and prominent business man of Eastern Canada, were discussed at to-day's luncheon meeting at Spencer's of the local executive, Major W. H. Langley presided, and Mrs. Curtis Sampson and Messrs. J. B. Warnicker, S. Rowlinson, H. C. Davis, W. M. Holman and Secretary T. Kennedy were present.

A luncheon, a drive about the city and district and a meeting where the president can lay before the public the aims and objects of the organization are among the tentative suggestions made. Final details will be announced later. It is believed that Mr. Harris will infuse considerable enthusiasm for Navy League work into the people of the Pacific Coast. He will arrive in Vancouver on September 25 and will reach Victoria probably on September 28, and will remain here two days.

Arrangements will also be made for a suitable anniversary celebration of Trafalgar Day, and the executive will go further into the details. Treasurer H. J. Davis requested the financial assistance of the Navy League in a very healthy condition financially. The organization is doing good work and is exercising every economy in the administration. President Langley commented on the greater efficiency which could be achieved through having the Provincial headquarters centered in Victoria.

Secretary Kennedy reported on the new arrangement regarding the Boys' Naval Brigade Band whereby greater interest will hereafter be taken in the organization. The band is in good shape and Bandmaster Rumsby will give each member of the band twelve private lessons in drum and guarantee that boys will attend practices and the various functions at which their attendance is required.

FLOATING BRIDGE PROPOSED TO LINK PIER WITH RESERVE

Construction of a floating bridge across the entrance to Victoria harbor so as to give direct railway connection with the Ogden Point pier is proposed in plans placed before the Provincial Government and to go before the Hon. J. H. King, Minister of Public Works for Canada, when he arrives here on Thursday; it was learned to-day.

The proposed floating bridge would operate from Lime Bay, on the old Songhees Reserve, to Shoal Point, which is just back of the Brackman-Ker Milling Company's plant at the Outer Wharves.

Besides carrying freight cars for the railroads, the floating bridge would carry motor and horse vehicles and pedestrians, giving Victoria West and the Esquimalt district immediate connection with the wharf port of James Bay, with a short line from Shoal Point along the shore of the harbor.

The proposal is being placed before the Governments by John Jardine for Esquimalt interests. Mr. Jardine has furnished the Government with plans and details of the proposal.

The distance to be covered by the floating bridge from Lime Bay to Shoal Point is exactly 1,800 feet. It is proposed to put in operation here in use along the Mississippi River and across the mouth of Portmouth Harbor from Fort Vancouver.

They are similar in design to large ferries but they run by cables lying on the bottom of the harbor. The floating bridge is to be built of steel and will be pulled by a cable from the shore to the pier.

Engineering investigations reveal that there are no engineering difficulties in the way of establishing this connection. Mr. Jardine said, Lime Bay provided an ideal sheltered dock and ample accommodation for the floating bridge. The bridge would be pulled by a cable from the shore to the pier.

It is also proposed to construct a rock-filled causeway as a continuation of Lime Street, Victoria West, to join with Head Street, Esquimalt, and give direct highway connection with Lime Bay—so that passengers can travel from the Outer Wharf, district could use the floating bridge.

"It is of extreme importance to both Victoria West and Esquimalt and is worthy of the consideration of the Provincial Government," said Mr. Jardine. "A line of rails could be laid along Lime Street to Head Street and by Paradise and Lyall Streets to Esquimalt. By this work Point would be brought into connection. The Navy Yard and Yards could be linked up and also the new drydock."

Such a spur could be operated by electricity and connected with the Outer Wharf at Ogden Point would bring Esquimalt within the range of a manufacturing center where cheap and ample rates are available.

"It is almost impossible to realize the possibilities that may accrue if this suggestion is carried out," said Mr. Jardine. "The establishment of car shops for building and repairing the rolling stock of the Pacific division of the National railway system, the industrial center of Victoria and the adjoining districts having a claim such as no other section of Canada possesses for work of this description."

No interference. "The construction of the floating bridge does not interfere in any way with shipping using the harbor. This is demonstrated by the fact that there has been no accident for thirty years, but because of the floating bridge has been operating. When one recalls the fact that Portmouth harbor is one of the busiest in the world, with its numerous docks, with huge warships continually passing in and out, it can be realized what it means when it is said that this means of communication is safe."

"A barge line across Victoria harbor is not only likely to interfere with navigation, but is to consider just now for construction across the outer part of Victoria harbor."

A little Japanese baby, Kazuo Kamada, aged only two months and twenty days, died last evening at the home of the parents, Mr. and Mrs. Kamada, 1125 Camosun Street. The funeral service will be performed at the funeral home on Thursday at 10:30 by Rev. Sadai Nakanishi, and the interment will be in Ross Bay Cemetery.

The remains of the late Mrs. Margaret Morris, whose death occurred last Saturday at the Royal Jubilee Hospital, were forwarded by the Thomson Funeral Home on yesterday afternoon at 3:30 o'clock. Interment will be made in the family plot there. Mr. James Morris accompanied the remains of his mother.

As no framed bill is estimated roughly by the experts to raise approximately \$400,000,000 in revenue on the basis of the present volume of the nation's import trade, the level of its rates, according to the experts, is slightly below the level in the Payne-Aldrich Bill, the last Republican protective tariff, but is considerably above the level of the Democratic Underwood law, now in force.

Political Broadcastings

The Hon. W. L. MacKenzie King, Premier of Canada, is making efforts to have some of his Cabinet Ministers attend the British Columbia Liberal convention at Nelson on September 28.

It is practically certain that the Hon. J. H. King, Minister of Public Works, will be there, but the Premier has sent word that it is difficult to get Ministers just now as they are scattered on their work in various parts of Canada, and some are even across the Atlantic.

West Vancouver is so badly in need of public works that the Government has given its permission for the municipality to spend part of its share of liquor profits for public works.

R. J. Stevenson, of Victoria, has been appointed acting gold commissioner for the Victoria mining division. T. W. Herne, Government agent at

Port George, has been appointed deputy collector at Barkerville.

J. B. Munro is to be temporary soil and crop inspector for the Department of Agriculture.

Albert's new police magistrate is to be E. E. Frost.

Canon Hinchcliffe, M.P.P. H. W. R. Moore, George Okell, P. J. Sinnott, J. A. Angus and H. Callow took part in the discussion at the McBride Conservative Club in the Belmont Building under President A. Fitch last night.

Col. Latta has been appointed to the Land Settlement Board during the absence of Col. R. E. Davies, at present sole director, who during the Winter will be forced to stay almost continuously at Sumas, where the Government is carrying on its reclamation work. Col. Latta was a former member of the board.

Edmonton, Sept. 12.—The Alberta Government will stand ready to co-operate with the Federal authorities and any other agency actively taking up the question of immigration, according to Premier Greenfield, by way of comment upon the newly announced policy from Ottawa and the programme of the Canada Colonization Association.

The Premier expressed himself particularly in favor of trying out the boy immigration scheme, which he believed would give the best results.

Edmonton, Sept. 12.—A conference of representatives of the British and Canadian Governments to deal with legislation made necessary to carry out the resolution of the British House of Commons on the lifting of the embargo against Canadian cattle will be held in London in the near future, it was announced to-day.

Winnipeg, Sept. 12.—The Manitoba Free Press has the following editorial to-day on the proposed strike of railway shopmen:

"Canada deserves something better from all concerned than a strike at this time."

Mr. Murdock, Minister of Labor, to the secretary of the railway shopmen who are threatening to strike against the wage reductions ordered by the Railway Association which have now been validated as a temporary measure by a majority report by a board of conciliation.

"Mr. Murdock's communications to the Secretary of the Railway Association and to the secretary of shopmen will meet with public approbation. They indicate that the Minister of Labor is standing up to his job and that his first concern is the welfare of the general public, which ought always to make the chief demand upon the attention of the public servants."

The United States shopmen struck in the first place against the wage scale fixed by the Chicago Labor Board, but for the past month have been prepared to return to work at this rate or pay pending a rehearing of the whole wage question if their seniority privileges are recognized. The strike began over wages, but is continuing about seniority.

"These Canadian shopmen are to-day in precisely the position the United States shopmen would be in if the railways conceded their demands as to seniority. They are at work with their seniority rights intact, with the right to a rehearing for better wages than those set out in the schedule to which they object."

"For the Canadian shopmen to begin a strike in repudiation of the precise status which the United States shopmen are striking to obtain would be a rather remarkable proceeding. Canada, in Mr. Murdock's language, certainly deserves something better than this."

AMERICAN DUTIES AT HIGHER LEVEL

That Is What New Tariff Measure Means

Washington, Sept. 12.—The administration tariff bill as finally perfected in conference, was presented to-day in the House. The conference report on it bearing the signatures of the Republican managers will be called up to-morrow, with the expectation that it will be disposed of not later than Thursday. The measure then will go to the Senate, but because of opposition to the day's embargo and other provisions, action there may be delayed a week or more.

As no framed bill is estimated roughly by the experts to raise approximately \$400,000,000 in revenue on the basis of the present volume of the nation's import trade, the level of its rates, according to the experts, is slightly below the level in the Payne-Aldrich Bill, the last Republican protective tariff, but is considerably above the level of the Democratic Under

The Art of Keeping Cool

is the art of preparing foods that supply in digestible form all the nutriment the body needs for the sultry days when the vitality is low and the appetite is "fussy."

Shredded Wheat

is a cooling food, rich in the elements that build healthy tissue without heating the blood. Keeps the body buoyant, the mind alert and active. Contains all the bran you need for stimulating bowel movement—a peppy food for old and young.

Two Biscuits with milk or cream make a complete, nourishing meal. Eat it for breakfast with sliced bananas or prunes; for lunch with berries; for dinner with sliced peaches, apricots, stewed raisins, or fresh fruits. Ready-cooked, ready-to-eat.

WAR RELIEF ACT BLAMED FOR SALE DISAPPOINTMENT

Taxes Too Heavy Charge for Property Disposal in Esquimalt

That the operation of the War Relief Act in so far as it applied to the accumulation of unpaid taxes on certain properties in Esquimalt was in that measure responsible for the poor success attending the Esquimalt tax sale just completed was reported to that Council last night by Municipal Clerk Pullen.

Sixty-two properties, with a total upset price of \$8,594.45, were put up for sale and 13 sold to purchasers for a total of \$1,250.56. The figures realized by outside sales was, in effect, the amount of the taxes due

on the lots so disposed. Some lots of the majority to fall back on the hands of the municipality carry tax arrears to a figure of over \$500 a piece, due it was explained to the piling up of past debts under the war relief measure. This influenced the sale to a great extent, it was felt, some carrying taxes unpaid since 1914, or eight years.

Suggest Zone System.—The zoning of Esquimalt into residential and industrial areas was forecasted in a motion advanced by Councillor Pomeroy. The motion was by way of reference to the municipal solicitor G. H. Sedger to see if this action would be possible. Reeve Lockley agreed that the move would be a good one for the municipality, but pointed out that it would provoke considerable dissension.

No More Sales.—That unemployment relief this Winter would be in the form of wages for work done was the situation on this question as outlined to the Council by the Reeve. No further sales would be paid, it was stated. The unemployment situation in Esquimalt is quiet at the moment, but the Council with an eye to the Winter, will discuss the matter further, it was decided.

Legal advice on the question of

filling the school vacancy created by the resignation of former Trustee Phillips will be sought. Some question as to the status of the Board with only four members was raised.

DELOME CASE RAISES QUESTION

Quebec Courts to Decide Matter of Canonical Law

Montreal, Sept. 12.—In the outstanding point raised by Lepid Houle on behalf of Rev. Adelard Delorme to prevent the latter's interdiction, the Quebec civil courts are faced with a puzzle of canonical law for the second time in fifty years. Listed among the twelve objections raised by Houle is one that the action must be instituted on the grounds that as his client is a clergyman, he cannot be proceeded against without a special dispensation from the ecclesiastical authorities. The portent of this point is a

peculiar one. The civil courts as such do not have to heed it, but if sustained, it means that no Roman Catholic may proceed civilly against a clergyman without first securing the consent of the local archbishop. No parallel to this case is to be found in legal history, although Montreal some fifty years ago was the theatre of one of the world's most celebrated religious disputes, hinged on canonical law. This was the famous Gibord case in 1870.

The formal argument in the petition is scheduled to open on Thursday of this week.

TRACK TAMPERED WITH AND TWO MEN LOST LIVES
Washington, Sept. 12.—Derailment of an express train on the Michigan Central Railroad near Gary, Ind., August 20, which resulted in the deaths of two railroad employees and injury of two passengers, was caused by "malicious tampering with the track," according to a report issued to-day by the Bureau of Safety of the Interstate Commerce Commission.

REPORTS ON GRAIN AND FRUIT CROPS

Prairie Threshing Delayed by Rain; B.C. Apples Being Picked

Winnipeg, Sept. 12.—With the exception of one or two localities, reports show that threshing outfits in Manitoba and Saskatchewan were practically idle all of last week, according to the weekly crop report of the agricultural department of the Canadian Pacific Railway, issued to-day.

Manitoba
In Manitoba the weather is generally cool, with light winds, exactly the condition needed for drying the crops with a risk of grain sprouting. Cutting of all grains in this province is completed except in a few northerly districts. Threshing is thirty to forty per cent. finished. Some Fall rye has been sown, but owing to the delay in threshing, completion of seeding of this crop will be later than usual. Pastures and cultivated grasses are freshening up, insuring good grazing until heavy frost comes.

Saskatchewan
The quality and yield of the grain so far threshed in Saskatchewan is uniformly good. Cutting of wheat is about finished and other grains from eighty-five to ninety-five per cent. Threshing is from ten to twenty per cent. finished. Recent rains will cause a residue supply of moisture for next year and put the ground in good shape for Fall ploughing.

Alberta
Local showers in many parts of Alberta caused temporary delay in harvesting, but on the whole fair progress has been made in both cutting and threshing. It is expected the balance of the grain will be in stock before the end of this week unless rain interferes. Yields are up to expectations in the majority of districts and with few exceptions the grain is grading well.

British Columbia
Fruit and vegetable crops in British Columbia are looking well and the present outlook is for a slightly larger apple crop than last year. Brown or core rot is present in some orchards, confined to a few varieties of apples. Wealthies probably suffering most. Apple picking is general.

CHARGE DUTY ON CANADIAN DOORS

New Zealand Government Says Dumping Is Cause

Telescope Is Offered to Southern Dominion

(Times Correspondence)
Wellington, N. Z., Sept. 11.—New Zealand is levying dumping duties on imported Canadian doors in cases where the selling price to an importer in New Zealand is less than the domestic value. At present these doors pay twenty per cent. duty with an additional primage duty of one per cent. There are so much inferior to New Zealand product that almost all the new homes now being built have got them installed. The local manufacturers, feeling the competition, have consequently sought to raise the tariff by the cry of dumping.

Telescope Offered.
Yale Observatory in the United States has offered a 24-inch photographic telescope to the Dominion. It is valued at \$100,000 provided New Zealand undertakes to man and maintain it.

Yale will pay for two observers who will be entered to use the instruments half time with the two New Zealand observers.

The telescope would be one of the largest of its kind in the southern hemisphere. When the Government will put up the money at a time when it is making drastic economies all round, however, is another matter.

Volcanic Action.
Steam thrown 5,000 feet into the air last week at White Island, off the East coast of the North Island of New Zealand, due to subterranean activity in connection with the volcano there. A scientific expedition to the island to find out how far activity had progressed and whether there was prospect of further earthquakes measured the columns of steam that were hurled into the atmosphere and found many in excess of 5,000 feet and some that went as high as 9,500 feet—figures that surpass all previous records.

White Island has been the scene of several dangerous explosions, but on the present occasion the scientists said there was little reason for misgiving. No new fumaroles had opened, and though the steam pressures were obviously high, the steam was finding no obstruction in issuing.

Army Reduced.
New Zealand's army is now smaller than it has been for the last thirty years. It is reduced to 14,470 men of all ranks, with 23,000 cadets. This makes roughly a division, whereas in the past the country had kept nearly two divisions at full strength. The reduction is due to the Government's economies.

Money for Defence.
German reparation money if Britain ever gets any of it, should be used for imperial defence in the view of the New Zealand Prime Minister, Rt. Hon. A. F. Massey.

To your correspondent he pointed out how Canada, New Zealand and Australia had to economize in their vital defence needs and how the British navy had been cut down to the danger point. The only way to ensure the safety of the 450,000,000 people who composed the Empire was to provide an adequate defence force. Only money could do that. And money could be obtained only by making those who had caused the war debt liquidate it.

"The Washington agreement," said Premier Massey, "does not relieve us of our responsibilities. I wish to heaven it were so, but war is not yet impossible and it may come upon us very suddenly. I hope it will not. I would like to think that there will be

THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-tives" the Fruit Medicine

Indigestion, weak digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness.

"Fruit-a-tives" will always relieve indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct constipation, which usually accompanies indigestion.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa.

Title for Man.
A baronetcy and ancestral estates await Claude Rivett-Carnac, son of an old English family, if he can be found. He is somewhere in New Zealand.

About fourteen years ago the young man, who then had no hope of succeeding to the title or estates, left his family in England after a bitter quarrel. He was the descendant of a Norwegian house that had settled in Norfolk in 1772 and his ancestor, Sir Thomas Rivett, entertained Queen Elizabeth. Carnac was added to the family name 120 years ago at the instance of an Anglo-Indian soldier who left a large fortune.

Claude Rivett-Carnac, after the quarrel with his family, went to South Africa and joined the Mounted Police. He was known there for his daring and on one occasion jumped his horse, for a bet, over seven bullocks standing abreast. Later he was known to be in Fiji, and later still in New Zealand. Prior to coming to New Zealand he is said to have visited Canada and to have married an actress when in San Francisco. His mother heard a report also of him having been on the coast of Hudson Bay on some enterprise the particulars of which were kept secret.

Lady Rivett-Carnac, of Sloane Street, London, is searching for her son all over the world. His cousin, Vernon Rivett-Carnac, Auckland, is convinced he is in New Zealand.

VANCOUVER ISLAND News

COWICHAN FALL FAIR THIS WEEK

Public to See Exhibits Friday and Saturday

(Times Correspondence)
Duncan.—Preparations are well in hand for the Cowichan Agricultural Society's 55th Annual Fall Fair. Entries are well up to the average of former years, excepting in the cattle classes, and in some sections they are far in excess of former years.

Three judging rings and an unloading stage have been put up this year for the live stock. The children's exhibits, including educational work, needlework, cooking, agricultural exhibits, flowers, and Boy Scout and girl classes will be in the old hall, as well as demonstrations under Miss Davidson and Mr. Somerville in domestic science and manual training. This will relieve the large hall and provide ample room for the five district exhibits entered. These are really miniature fairs in themselves.

W. Waldon, the secretary, has all matters connected with the show well arranged beforehand, so that as in former years the show will proceed smoothly.

Public Invited Friday.
Art exhibits are required to be in place on Wednesday. All exhibits, excepting live stock, are to be ready for judging by Thursday at 11 o'clock and the live stock will come in before 11 o'clock on Friday. The show will be open to the public from 9 a.m. to 5 p.m. on Friday and from 9 a.m. to 10 p.m. on Saturday.

In charge of the horses are C. C. Ward, Brig. Gen. Gartsdale-Spaight and J. S. Robinson; cattle, F. J. Bishop, E. C. Corfield, H. Bonnell, S. L. Matthews and W. Waldon, Jr.; sheep, F. C. Blum; swine, A. A. Muttter; goats, Mr. and Mrs. Bradley-Dyne; dairy products and honey, Mrs. B. C. Walker and Miss G. M. Stephens; field produce, A. A. B. Hurd and C. Bazzett; garden produce, A. H. Peterson, A. R. Wilson; district exhibits, L. W. Huntington, Mrs. B. C. Walker, W. S. Barton, A. A. B. Hurd, T. J. Paul, R. W. Neel and W. T. Whitehead; fruit, W. T. Corbushley, W. J. Jennings, the Rev. Father Francis; ladies' work, Mrs. Whitmore and Mrs. G. G. Share; domestic science, Mrs. Pitt, Mrs. Peterson, Mrs. C. H. Dickie and Mrs. Jaynes; flowers, Mrs. Leather, Mrs. Townsend and Mrs. W. Hopkins; art, Mrs. Burgess, Miss Clark, Mrs. Wallick and A. Burchitt; photographs, F. A. Monk; children's exhibits, Mrs. H. D. Morten; Mrs. R. M. Palmer, W. Stacey and W. M. Fleming.

Better babies—content. Duncan Hospital and Cowichan Health centre, with Dr. A. G. Price of Victoria as medical examiner. There are six classes in this contest, for boys and girls under six months, from six months to one year and from one to two years, and for the champion boy and girl.

The Indian department of field and garden produce, Indian arts in knitting, work with cedar bark, needlework, cooking, baskets, etc., is under the agent, A. H. Lomas, the Rev. W. H. Gibson and Miss Robertson.

During the past ten days, flights of geese have been seen at Cowichan Bay going south.

League Pilot W. H. Brown came to Duncan to give demonstration flights on Sunday on the invitation of the League, and Chinatown is lit with flags and national decorations.

SAYWARD RESIDENTS OPEN A SCHOOL

(Times Correspondence)
Sayward.—Sayward still keeps moving forward, as is shown by the opening of another school in the upper portion of the valley this month. The new schoolhouse, which was built by the residents, was destroyed by a forest fire last month. F. Harris has kindly loaned a building, which has been fitted up to be used as a temporary school. Miss Blakemore is the teacher of the new school.

Miss McKenzie, Assistant Director of Health for the Province, paid a visit to the valley this week. It was her first visit to this district and she expressed herself as being very favorably impressed with what she saw, and also stated that she found that very good work was being done here by the local Health Centre.

The residents of the upper portions of the valley are growing anxious about the completion of the new bridge which is under construction. Late last Spring work was stopped on account of high water, and very little has been done during the Summer, and when the work did start it was again held up for the need of a pump. After a long delay the pump has arrived and now the work is still delayed for the need of an engine to operate the pump, and the high

water season will soon be here. Mr. and Mrs. Le Blongue have arrived from Vancouver. Mrs. Le Blongue is the daughter of Mr. and Mrs. A. Morton, of Sayward. A reception and dance will be given in the schoolhouse in their honor on Saturday evening. The newly wedded couple will take up their residence here.

The Sayward Women's Institute held its regular meeting at the home of Mrs. J. Long on Wednesday last. Mrs. G. Browning, of North Vancouver, who with her family has been spending the holidays here, has returned home. Considerable rain has fallen in the valley during the last week, which will be a great help to the root crops, and will also be the means of providing good feed for the livestock.

JAIL TERM FOR INTOXICATED MAN

(Times Correspondence)
Sidney.—On Saturday evening about 6 o'clock, Provincial Constable Philip arrested William Allen for being drunk. On Monday afternoon the case came up for trial before Alexander McDonald, J. P. The accused pleaded guilty to the charge of being intoxicated in a public place, and as he had already this year been convicted twice, he was sentenced to three months' imprisonment.

Jack—"Pa, what are ancestors?"
Father—"Well, I'm one of yours. Your grandpa's another."
Jack—"Oh! Then why is it that folks brag about them?"

No Rules For the Use of Williams'

USE Williams' Shaving Cream your own way. It's made so you can. Like to rub the lather in with your fingers? All right—go to it. Hate that fussy operation? Very well—cut it. Wedded to hot water? No possible objection. Prefer cold? See the wonderful lather you get with Williams' and cold water. Tough beard? All beards are alike to Williams'. Skin sensitive? Not after a shave with Williams'.

Any skin, any beard, any water, any conditions—Williams' meets them all with the greatest possible efficiency and luxuriousness. A free trial tube will prove it to you.

Williams' Shaving Cream

Made in Canada

The J. B. Williams Company, 655 Drolet St., Montreal

For Mothers—"FRY'S"

For true nourishment in delicious form FRY'S COCOA is supreme. Make it this way and you will find it most appetizing and digestible. To 3 good teaspoonfuls of Fry's Cocoa add three spoonfuls of sugar, mix well. Then add one half cup of boiling water and mix thoroughly. Add two cups of boiling water and boil very slowly for 5 minutes, stirring occasionally. Then add milk or cream to taste. This will give you Cocoa at its best.

REMEMBER, NOTHING WILL DO BUT FRY'S

THE RIGHT WAY.

Because of the fact that the day is now no more when the Government of this country may invite all and sundry and present them with large tracts of land for nothing the proposal which the Canada Colonization Association intends to develop is about the only method of filling up the Dominion's virgin acres with settlers of the right kind. It will have been gathered from the details of the scheme which were made public yesterday that this enterprising and courageous organization has gone to the bottom of the question before commencing operations.

The Association has been assured of the warmest co-operation on the part of the Dominion and Provincial Governments—to say nothing of the railways and such other institutions as may be considered to possess any influence whatsoever. It will possess itself of complete details of all land available for settlement and constitute itself the official medium for its ultimate disposal to the settler.

In its development of the plan the Association will take over the newcomer on his arrival, assist him in the selection of land, and generally look after him during the initial period of his pioneer venture. It will be in a position to advise him as to the land and locality for which his previous training and financial standing fit him. Similarly will its machinery guide those entirely unfamiliar with Canadian methods of farming. In other words the Association will bridge the gulf between a miscellaneous collection of would-be settlers and a miscellaneous collection of would-be vendors. It will utilize local land agents where possible and co-ordinate their work instead of adding to a multiplicity of effort working at cross purposes.

From the nature of its plans it is not difficult to understand the immensity of the proposal which the Association has tackled. It must be equally patent to most people that the programme laid down should produce the success that is so desirable and necessary. Although it would be a libel upon the hardy men who look upon the conquest of virgin soil as the greatest triumph of individual effort it were it to be suggested that the day of the pioneer is over, it will have to be admitted that if the right men with experience and financial means can be brought to Canada in large numbers rural development ought to go ahead at a pace that is virtually demanded by the country's economic condition.

As the Association's proposal gets under way it will be interesting to observe its progress. In the meantime the country as a whole can be assured that by the active co-operation of all progressive authorities on both sides of the Atlantic there should be nothing to hinder the realization of the organization's best hopes. That the scheme has assumed such a concrete and practical form in the face of obvious difficulties is a tribute to the untiring labors of those who conceived the idea in the first place. Men like Sir John Willison and Mr. M. A. Brown—president and vice-president respectively—have given many months of time and consideration to the project. It is also gratifying to learn of the promise of hearty support and assistance from Mr. Stewart in his capacity as Minister of Colonization and Immigration.

It may be pointed out incidentally that the people of the West owe it to themselves to assist the Association's plans in whatever way they may. By these and other means such as can be assured

GETTING TOO "CHESTY."

Certain provisions of the Treaty of Versailles have a specific meaning for the Turk. It is true that his complete ejection from Europe was much simpler to provide for than to carry out. But there are two outstanding particulars in which it will be the duty of the Allies to maintain a firm front and support it by force if that course should be necessary. There must be no thought of restoring Turkey to the status of a great power in Europe. Anatolia and Thrace possess Greek majorities which must prevail unless the Versailles policy is to be thrown overboard.

Greece's temporary helplessness and positive incompetence in the field are circumstances which may not be contemplated by Greece alone. Were such the case no Allied tears would be shed over her punishment. On the other hand if Greece shall be protected against the Turk and his methods it will be because the principal powers of Europe are determined that the fate of Christian peoples shall not be placed in his hands again. Dictating terms to the Allies at the point of the bayonet will be confined to those Turkish newspapers whose courage has been strengthened by recent events.

If the Ankara Government should go too far in its excitement of the moment it may find itself confronted with a much larger undertaking than that which it has just disposed of. The old policy of expediency—notwithstanding the threat of Moslem revolt in India—would never survive a Turkish attempt to destroy the meaning of that part of the Treaty of Versailles which defines the status of Constantinople and the Dardanelles. The Turk's reputation as a fighter is as well known as his methods of ruling. It is fortunate for Greece in consequence.

MAJOR MACLAURIN.

Those with whom he was actively associated in particular and those who follow the progress of aviation in general will have been grieved to learn of the death of Major MacLaurin. As the officer in charge of the Government's air station in Vancouver he had proved himself a capable pilot. It was not his policy to provide entertainment for the general public. He belonged to the school which realizes the practicability of aerial navigation and in consequence his work will remain a chapter of accomplishment. Many others have written similar contributions with a similar ending. Posterity will gain by their devotion to the cause of modern progress.

COSGROVE'S WARNING.

If the Irish insurgents were under the impression that the removal of Arthur Griffith and Michael Collins would undermine the determination of the remaining supporters of the Anglo-Irish Treaty the statement which Mr. Cosgrove made to Parliament yesterday will have dissipated such an idea. His observations constituted a warning to the rebels that their obstinacy would be met with sterner measures by the Government.

The eabled report of his address gives an insight into the character of the Day's new President. Its directness and obvious sincerity provide a new guarantee of good faith. If he shall continue to preserve the support of men with a similar understanding of the obligation which now rests upon them the ultimate victory would seem to be assured.

NOTE AND COMMENT

United States Shipping Board officials have just sold 226 wooden ships for \$750,000. There will come a time when battleships will be going for a song. Announcements of a reduction in the public debt of this country and a really big and promising immigration scheme should help to cheer the blue ruin preachers.

After eleven years a citizen of this Province has returned twelve dollars to the Provincial Treasury with the explanation that he was not entitled to it in

the first place. However rare may be the species it does not do to say that it has ceased to exist.

Victoria's tubercular veterans intend to ask for the co-operation of the various Clubs in their efforts to obtain a free clinic for this city. Rotary furnished a clinic in Vancouver with the assistance of public subscription. Victoria's progressive organizations will no doubt assist the T. B.'s and swell their appeal to the Government.

Other People's Views

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the more chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication or rejection of articles is a matter entirely within the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

SINGLE TAX

To the Editor:—God owns the land, says Mr. Hamilton. Of course He does. He owns all things. He made all things. "The cattle on a thousand hills are His." And yet men acquire private ownership of land. So with God's own sanction, do they acquire private ownership of land down to this day. And the assumption of complete ownership of land, which rests single tax, is dead against the laws and customs of civilized peoples in every quarter of the globe. Glowing pictures of what a single tax would do if adopted belong to the realm of dreams. 1. on the other hand, am forced to live and move and have my being in world of stern realities.

ALEX. MACDONALD, Bishop of Victoria.

VISIT OF AMERICAN LEGION.

To the Editor:—As acting secretary of the last meeting held of the joint reception committee, representing the A. and N. Veterans Canadian Legion, G. A. U. V. G. W. V. A. Veterans of France, I wish to take this opportunity of thanking on behalf of our committee, Premier J. Oliver, Mayor Wm. Marchant and all who assisted in making the stay of the American Legion party a pleasant one.

Officials of the American Legion noted with much interest the close co-operation of the ex-service organizations in handling the arrangements made for their welcome, and before leaving on Sunday afternoon's steamer, expressed a hope that these close relations would continue in the future, with a view to a complete linking up of all the ex-service associations in Canada in a similar manner to the American Legion.

They also extended a very warm invitation to the ex-service associations in Victoria to pay a return visit to Seattle.

ROBT. MACNICOL, Acting Secy., Joint Reception Committee, Victoria, B. C. Sept. 11.

TRAINMEN'S ORGANIZATIONS.

To the Editor:—The anonymous correspondent who writes in Saturday's Times regarding above is referred to page 692 in the July Labor Gazette published by the Department of Labor Canada. It deals fully with the third triennial convention of the Brotherhood of Railroad Trainmen held at Toronto, Ontario, from May 5 to June 7. Some holiday, by way of twenty-seven officials and 936 delegates. The following occurs in the report: "The membership of the brotherhood was reported to be 175,000 as against 159,998 in 1921. The decline is attributed to the cancellation of the charters of several branches which had taken part in the strike of the yardmen at Chicago in 1920." The report quotes the receipts for the triennial period—amounting to \$23,283,365. Balance on hand, \$7,940,374. If our anonymous friend still doubts, he may write to headquarters, although he may be fined \$50 for butting in. The rest of his letter will be answered, by permission, when he discloses his initials.

He may be a trainman, or he may be a long-haired loafer not worth powder and shot.

WALTER FOSTER.

MOST SUITABLE IMMIGRANTS

To the Editor:—I notice in a recent leading article in "The Times" on the most suitable immigrants for Canada and stating that Bohemians and Scandinavians are most suitable. From experience in the past, I can state you are right, but there is another class better still, to wit, the homeseeker from the United States. For the reason he has no baggage with him horses and cattle and, best of all, farming experience, and is used to farming in hundreds of acres, while the European is poor and has only owned or rented a few acres of land in his native country, while the United States settler's father, grandfather and he are at home in a new country, and think of what growing acres by hundreds instead of twenties. With his capital, horses and outfit he at once proceeds to open up a farm, whereas the European needs help and years to establish himself.

There is another feature to be considered, and more serious than the immigration of the Slav, and that is the emigration of the Canadian to the United States. While numbers may come from Europe they will not take places, except by count, of those continually being absorbed by the loss of the public south of us, and their loss is Canada's calamity.

From information, this exodus is increasing along the whole border, and it might be well for Canada to take into account the situation and try to discover why this country does not hold its native sons, and then expect Europe to take their places as far as numbers are concerned. Some would say opportunity here is lacking compared to the south country, and it would be a truthful statement as evidenced by results. Some people blame conditions to the system of monopoly and others to speculators in the natural resources. It is said millions of acres of land suitable for wheat raising are owned by corporations who have no souls and held at a high price, and made so by settlers on adjacent lands, whose cultivation raised the price of adjoining speculators' lands. The speculator buys cheaply and waits to profit by others' industry. This profit William

Jennings Bryan called the "unearned increment." Not long since the lumber industry received a serious reverse by a large increase in freight charges; and the water power used and unused—who owns them? I know one of the largest hydro-electric powers in this Province has been filed off and held up unused for nearly ten years by a giant corporation, which pays the fees and keeps industry from using it and does nothing with it. I wonder if monopoly would not spell the reason why young Canadians leave their native land.

Considering the enormous crushing debt Canada owes, and largely to the United States, it is not time to take stock of ourselves and ask what is wrong, for it is no credit to a country when its sons seek a home elsewhere. Referring again to farming, I would suggest if the Ottawa Government would guarantee the farmer not less than \$1.00 per bushel it would need no better immigration agent than that. Even then it costs nearly that to raise it.

JAMES GARDEN, 1817 Quadra Street, Victoria, B.C., September 8, 1922.

AMERICAN TARIFF RATES ARE FIXED

Duties on Agricultural Products, Wool and Cotton

Houses Have Yet to Discuss the Bill

Washington, Sept. 12.—The more important rates in the administration of tariff bills finally agreed upon in conference are:

Agricultural products: Cattle, from 1 1/2 to 2 cents a pound. Sheep and goats, 2 1/2 cents a pound. Fresh lamb, 4 cents a pound. Hogs half cent a pound. Fresh pork, three-quarter cent a pound.

Bacon, ham and shoulder, 3 cents a pound. Lard, 1 cent a pound. Lard compounds and substitutes, 4 cents a pound.

Milk, fresh 2 1/2 cents a gallon. Butter, 1 cent a gallon. Cream, 20 cents a gallon. Milk, condensed or evaporated sweetened, 14 cents a pound. Butter and oleomargarine and other butter substitutes, 5 cents a pound. Cheese and substitutes, 5 cents a pound.

Poultry, live, 3 cents a pound. Poultry, dead, 6 cents a pound. Eggs, of poultry in the shell, 8 cents a dozen.

Honey, 3 cents a pound. Horses and mules valued up to \$150 each, \$30 each; valued over \$150 each, 20 per cent.

Fresh or frozen salmon, mackerel and halibut, 2 cents a pound. Herring and mackerel, pickled or salted, 1 cent a pound. Barley, 20 cents a bushel. Corn, 15 cents a bushel. Macaroni and noodles, 2 cents a pound.

Oats, 15 cents a bushel. Rye, 15 cents a bushel. Wheat, 15 cents a bushel. Wheat flour, 75 cents per 100 pounds.

Apples, 25 cents a bushel. Apricots, green, ripe, dried or in brine half cent a pound. Peaches and pears, half cent a pound.

Hay, \$4 a ton. Hops, 24 cents a pound. Onions, 1 cent a pound. Irish potatoes, 50 cents per 100 pounds.

Wool. Wool and manufactures thereof: Raw wool, 21 cents a pound of scoured content.

Woolen cloth for men's and women's suits and coatings, from 24 cents a pound and 40 per cent, to 45 cents a pound on the wool content and 50 per cent.

Sweaters and other outer wear, knit or crocheted, from 25 cents a pound and 40 per cent, to 45 cents a pound and 50 per cent.

Clothing and other articles of wearing apparel, not knit or crocheted from 24 cents a pound, and 40 per cent to 45 cents a pound and 50 per cent.

Cotton. Cotton and manufactures thereof: Cotton sewing thread, from 20 cents to 35 per cent.

Cotton cloth, from 30 per cent to 45 per cent.

Flax and Hemp. Linen cloth, from 50 per cent to 55 per cent.

The WEATHER

Daily Bulletin Furnished by the Victoria Meteorological Department.

Victoria, Sept. 12.—A. m.—The barometer remains high over Northern B. C. and fine, warm weather continues on the Pacific Coast. Rain has been reported from the Yukon, British Columbia, Alberta and Manitoba, and frosts are reported in parts of Saskatchewan.

Reports. Victoria—Barometer, 29.86; temperature, maximum yesterday, 78; minimum, 62; wind, 12 miles E. weather, clear. Vancouver—Barometer, 29.86; temperature, maximum yesterday, 72; minimum, 59; wind, calm; weather, clear.

ALBANY BANKER LIKES ISLAND

James H. Manning Enthusiastic Over Fishing in B. C. Streams

Attracted by the wonderful scenery and the fishing on Vancouver Island, James H. Manning, prominent United States banker and son of former secretary of the United States Treasury, Daniel Manning, is now in Victoria, and is stopping at the Strathcona Hotel. He is on his third annual visit to British Columbia.

Mr. Manning's home is in Albany, New York, of which city he was at one time Mayor. He is one of the most prominent business men of the United States, and his connections cover a wide and diversified field. He was formerly a newspaper man and owner of the Albany Argus, which he gave up to take over the Weed-Parsons Printing Company.

He is now head of the second largest savings bank in Albany, having \$25,000,000 of deposits and 50,000 depositors. It is a workingman's bank, and is operated on the mutual profit basis. All the directors serve gratis, and the manager and treasurer are the only administrative officers who are paid. Interest at the rate of 4 1/2 per cent is paid on deposits.

Mr. Manning was intimately connected with the late Dr. Graham Bell, and he is one of the oldest directors of the American Telephone Company, which is the largest of its kind in the world. He wears a button bearing six stars, each star representing five years' service in the company. He has written several books, among them the "Century of American Savings Banks." He is accepted as one of the foremost authorities on banking, and he recently addressed 1,000 delegates to the National Conference of Mutual Savings Banks at Atlantic City, N. J.

Money for industrial and commercial development is loaned out on the American side at six per cent, and home-building is encouraged in every possible way by the banks, said Mr. Manning.

Mr. Manning was enthusiastic over the fishing in British Columbia, and particularly on Vancouver Island. He has a great preference for the steelhead, which is the King game fish, and his biggest catch this year, a fish of 55 pounds, he has just turned over to the taxidermist to have prepared for shipment to his home.

He spent some time at Campbell River, and was delighted with the country in that vicinity and around Courtenay. He will leave this evening for Vancouver to join Mrs. Manning and his daughter, Miss Beatrice A. Manning, who will leave Vancouver on September 20 for Honolulu.

"I take August and September of each year for my holiday, and I find there is no better place in the world than British Columbia in which to spend it. I never fail to tell my friends back East what a delightful time one can spend in this part of the world," said Mr. Manning.

POSSSESSION OF GOLD LEADS TO CHARGE IN COURT

Toronto, Sept. 12.—Alleged to have illegal possession of a large quantity of crushed gold ore taken from Timmins Camp, L. Donnelly, a manufacturing jeweler of Toronto, was arrested last night. The police claim that Donnelly, during the past few months has received from a certain man in the north country upwards of \$5,000 worth of gold. Another arrest is expected in connection with the case.

ACCIDENTALLY SHOT.

Prince Rupert, Sept. 12.—C. Toombs, 38, a rancher, was accidentally shot by Harry Walberg at Terrace to-day, and is in a serious condition. Walberg was examining Toombs's new revolver, which neither man knew was loaded.

SUPREME COURT OF CANADA DISMISSES CONTRACT CLAIM

Government Service Lost on Appeal of Contract Issue

The Supreme Court of Canada has dismissed the Canadian Government's appeal against the British Columbia Appeal Court's judgment on the Canadian Trading Co.'s claim for damages sustained for not carrying out a contract for shipment of lumber. It appears that the Canadian Trading Co. made contracts for shipment of 1,000,000 ft. of lumber to Australia by the S.S. Canadian Inventor, and 250,000 ft. by the S.S. Canadian Prospector, in March, 1920. Owing to delays in the building of the Canadian Trading Co., the shipment was delayed, and the original contract was given in favor of the C.G.M.M., but this was reversed by the B.C. Court of Appeal, and that court's judgment has been upheld, with costs. It was held that the wording of the contract applied to the continuance of the C.G.M.M. service between B. C. and Australian ports, and not the actual running on time of the two steamships named in the contract. The delay in the shipbuilding yards was beyond the C.G.M.M.'s control, and equally beyond the Canadian Trading Co.'s control, but the responsibility for the non-fulfillment of the contract rested with the C.G.M.M.—Canadian Railway and Marine, Ltd.

TRADE TO NORTH PACIFIC BRISK

Intercoastal Carriers Busy Throughout First Half Year With Northern Movements

"The most remarkable gains of the year were in the movements of cargo to and from the Pacific Coast of North America, particularly the latter," says The Panama Canal Record in reviewing the canal traffic of the fiscal year, 1922.

There was reduction of 6.2 per cent in the total cargo tonnage passing through the canal as compared with the fiscal year 1921. The totals are, 1922, 10,884,810 tons; 1921, 11,599,172 tons.

The greatest shrinkage in trade was with the West Coast of South America, in which the total imports and exports declined 1,338,493 tons. Exports from the United States Atlantic and Gulf to that region dropped from 933,261 to 244,514 tons.

Referring to the North Pacific movement, The Record says: "Exports from the west coast of the United States to Europe were 1,502,153 tons, as compared with 1,155,840 in 1921, and from Western Canada to Europe 429,272 as compared with 154,513. The whole west coast of North America should be treated as a unit in dealing with these figures, as most vessels in the trade load and discharge cargo at both American and Canadian ports. The combined increase amounted to 413,102 tons. Canadian imports from Europe increased from 20,416 to 139,552, and American imports from 144,551 to 186,686. The combined gain was 717,238 tons.

"Cargo moving from east to west in the United States coastwise trade increased from 628,429 to 1,288,075 tons, and cargo moving from west to east from 673,659 to 1,274,452 tons. The total gain in this trade for both directions has been 1,190,139 tons, equivalent to 88.7 per cent. This rapid development of the coastwise trade is the most conspicuous feature of the year's business. It has compensated for losses elsewhere, and maintained the total volume of traffic at nearly the same level as in 1921.

"There has also been an increase in the trade between the west coast of Canada and the east coast of the United States, but a comparison can not be made, as exact statistics for 1921 are not available. In 1922 the westbound cargo on this route amounted to 88,468 tons, and the east-bound to 159,921 tons.

"Of other trades, The Record reports: "The trade with Australasia has also fallen off. Exports from the United States to Australasia declined from 620,428 to 258,096, and imports from Europe from 391,848 to 359,895. Shipments from Australasia to the United States fell from 147,877 to 42,827, and to Europe from 523,245 to 381,538. The total loss of tonnage in the Australasian trade amounted to 418,748 tons.

"Exports from the United States to the Far East increased from 1,213,906 to 1,728,172 tons. Imports from the Far East fell from 424,144 to 303,315. The combined movement showed a gain of 389,537 tons."

CREW OF JEKYL'S AND HYDE'S WORK UNUSUAL SHIP

Prayers Held at Regular Intervals Interspersed With Gambling

A mixed crew, with marked tendencies towards a composite and dual personality is reported in a New York dispatch of to-day's date. A continuous round of prayer and gambling, alternate and incessant, oddly enough produces a good crew, it is said.

With 12 white officers and 69 Malays and Lascars aboard, the freighter company, of the Oriental Steamship Company, which is docked at pier 29, Brooklyn, has come to be known along the waterfront as "the pray and ship."

A Serang aboard has been depulized by a high priest of India to lead the seamen in their prayers, and at certain designated hours during the day and night, they are called together and kneel on the deck of the pier and turn their faces toward the East and pray. None can speak English.

The only other activity extensively indulged in by the Lascars and Malays on the trip is gambling. One of the ship's officers says it is just a continuous round of prayer and prayer, leaving off one to take up the other. The men form a good crew, it is said, and work for much less than the average seaman, standing the tropical heat better than any other seamen used on the Pacific route.

RECEIVER APPOINTED

Vancouver, Sept. 12.—Arrangements whereby the bondholders of the Canadian Western Steamships, Ltd., owners of the S.S. Margaret Coughlin, will operate that ship in the Atlantic trade under a receiver were ratified by Mr. Justice W. A. Macdonald yesterday. H. A. Stevenson was appointed receiver. The ship is now lying idle in False Creek.

News from the Ocean Lanes

NAVIGATION AIDS ARE FREE OVER FEDERAL WIRELESS

Government Stations Broadcast Weather Information and Ice News

The Marine Department announces that messages appertaining to navigation of any ship are handled without charge between the captain of a ship and any government department, or other official, the officer in charge of any radiotelegraph station, or any person whatever, in connection with weather conditions and forecasts, tide and ice conditions and reports of aids to navigation, from the following stations: Red Head, St. John, N.B., Larcher Lightship, Cape Sable, Barrington Passage, Halifax, Sable Island, and North Sydney, N.S., Cape Race, Belle Isle Point, Amour, Nfld., Heath Point Lightship, Grand Stone Island, Cape Bear, P.E.I., Father Point, Clarke City, Father Point, Grosse Ile, Quebec, and Montreal, Que.; Kingston, Toronto, Port Burwell, Point Edward, Tobermory, Midland, Saint Ste. Marie and Port Arthur, Ont.

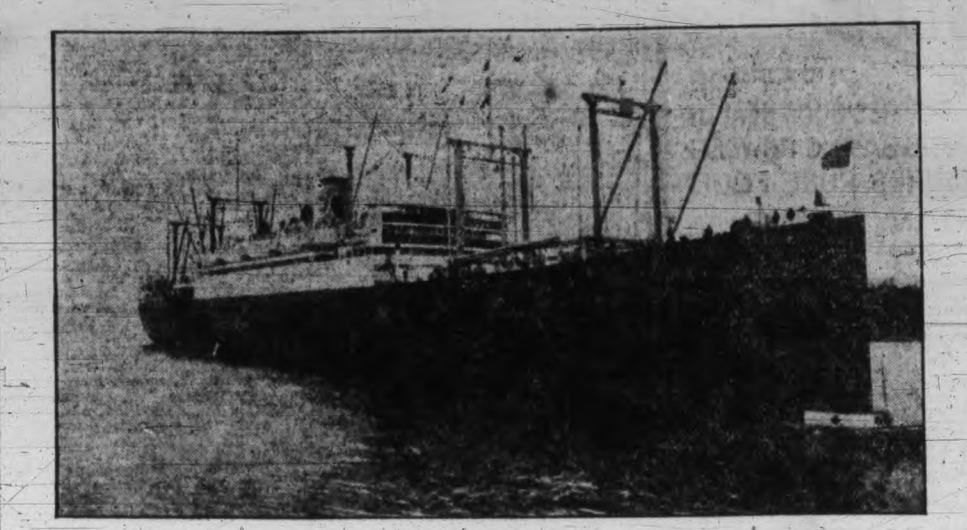

The following stations, in addition to the foregoing information, broadcast messages appertaining to navigation, respecting dangers to navigation at routine periods—Barrington Passage, Cape Sable, N.S., Cape Race, Belle Isle, Nfld., Father Point, P.E.I., Quebec, Que., Kingston, Toronto, Port Burwell, Point Edward, Midland, Saint Ste. Marie and Port Arthur, Ont.

These stations are owned by the Dominion Government and operated by the Marconi Wireless Telegraph Co. of Canada, under contract with the Government, with the exception of the stations at Barrington Passage, N.S., and St. John, N.B., which are owned and operated by the Dominion Government. Especially urgent reports respecting dangers to navigation are transmitted by all the foregoing stations on 600 meters, immediately on receipt, in addition to the general routine transmission.

An Ottawa press dispatch of Aug. 1, stated that in carrying out the Government's policy to give up commercial radiotelegraphy, which was undertaken as a war emergency, the Barrington Passage, N.S., station will be closed shortly. This follows on similar action by the British Government with regard to the Admiralty medium power radio station at July 1. As consequence the commercial service between Barrington and Bermuda has been suspended and as the Government has no other use for Barrington it will be closed. Both were war stations, having been erected in 1915 as part of the chain of naval radio stations, extending from St. John's, Nfld., to Bermuda, British Guiana, Barrington acting as the connecting link between St. John's and Bermuda. The closing of the North Atlantic chain of naval radio stations.

Remember—Annual Pound Party of the Protestant Orphans' Home to be held at the Home on Thursday, the 14th inst., from 3 to 5.30 p.m.

PRESIDENT JEFFERSON IN PORT

Admiral liner brings 500 tons freight for Victoria. As the Wenatchee she opened the service of United States Governmentally owned passenger vessels from Seattle to the Orient.

GRAIN STATISTICS OF CANADIAN GROWERS

Decreases Noted in Some Series; Elevators Active

The Dominion Bureau of Statistics, Internal Trade Branch, reports that the grain in store at the various elevators in store in the three prairie provinces was as follows: Manitoba, 784,000 bush; Saskatchewan, 2,578,401; Alberta, 2,178,296; a total of 5,540,497 bush. The receipts were 319,044 bush and shipments, 1,550,870.

In the interior terminal elevators the decreases were: Wheat, 123,062 bush; oats, 11,217; barley, 2,590; fax, 989, and rye, 4. No wheat was received at Vancouver and shipments out of Vancouver were: Wheat, 49,714 bush, and by rail, 18,496.

In Winnipeg private terminal elevators the decreases were: Wheat, 22,000 bush; oats, 2,519, and barley, 4,513.

In the public and private terminal elevators at Port William and Port Arthur the decreases were: Wheat, 1,145,029 bush; oats, 19,878; barley, 168,507; fax, 36,212, and rye, 54,913. Receipts were: 1,350,329 bush, shipments by ship, 3,369,697, and by rail, 365,762.

In the eastern public elevators the decreases were: Wheat, 1,606,406 bush; barley, 116,754, and fax, 912. The increases were: Oats, 36,011 bush, and rye, 7,560. Receipts were: 2,492,636 bush by ship, and 149,341 by rail. The shipments were: 3,341,210 bush, by ship, and 946,301 by rail.

The quantity of U.S. grain in store at eastern public elevators was 340,319 bush, compared with 6,483,887 for the same period, 1921. The bulk of the former quantity was: Corn, 3,264,968 bush, and wheat, 2,824,087. U.S. lake ports showed increases: Wheat, 243,283 bush, and barley, 67,145. There was a decrease in oats of 36,673 bush. U.S. Atlantic seaboard ports decreased: Wheat, 2,095 bush; oats, 156,405; barley, 15,145, and rye, 13,435.

INCREASE SERVICE TO MEXICAN COAST

Slight Changes Reported in Movements at Southern Port

San Francisco, Sept. 12.—Addition of two more steamers to the run between Mexican ports and San Francisco was announced to-day, no stops being made between Seattle and Balboa. The Luckenbach Steamship Company hopes to set a record of eighteen days between the two ports.

Adding Savannah and Charleston to the ports of call, the steamship Ipswich of the American Hawaiian Line is to be in port about September 28 to take cargo for Mobile, New Orleans and the two new stopping places. The Ipswich, recently purchased, is expected to be retained in the Gulf service of the American Hawaiian Steamship Company.

The tug Sea Monarch is expected here to-morrow with the schooner Wawona in tow, and to shift the sailing craft to the fisheries moorings in Salmon Bay. The Wawona, one of the Northern Cordish fleet, reached Anacortes a fortnight ago.

PRESIDENT JEFFERSON ARRIVES FROM JAPAN

Premier Admiral Liner Brings Light Cargo and Passenger List

The Admiral liner, "President Jefferson," Captain F. R. Nicholls, made quinquennial at William Head at daybreak this morning, tying up at the Ogden Point docks at 8 o'clock.

An excellent voyage was reported. The ship carried 78 cabin passengers. Included in her cargo were 1,822 bales of Chinese silk, the total shipment of raw silk brought over being 2,940 bales.

Cargo was light, there being but 2,927 tons in all, of this the most bulk being 10,204 cases of Japanese tea.

The Jefferson brought a heavy mail, there being 1,669 bags in the mail room.

The President Jefferson cleared for Seattle this afternoon, after unloading over 500 tons of Victoria freight.

From Arctic Siberia.

Among the passengers this voyage were Dr. Alfred H. Brooks, captain Charles H. Lindquist, the well known Pacific coast mariner and Dr. L. J. Stejneger of the Natural History Museum of Washington, D. C. The three have been companions under the Northern Lights of Siberia, performing general survey work for the United States Government. Dr. Stejneger is an expert on the fur industry, while Dr. Brooks is a fisheries expert. The temporary cessation of their work of investigating Siberian coastal conditions is due to the health failure of Dr. Brooks.

G. D. Litchfield, a banker of Han-kow, China, is visiting the United States upon a vacation, as is Alfred H. Thomas, manager of the Honan distributing services of the Standard Oil.

Chinese Upheavals.

Mr. Thomas remarks that his three years of service in Honan was very quiet politically. There was nothing exciting save the activities of the brigands who, when they got too strong for the military governor of the province to handle, are taken into the army. The brigands, however, being made some high ranked commission officers.

The most active brigand to-day was a few weeks ago the Tuchen or Military Governor of Honan, Wu Pei Fu set out to end the Manchurian domination of Peking by Chang Tso Lin, this Honan Tuchen tried to compel a Wu's resignation, got crumpled in himself, and is now a number one brigand waiting trouble generally," narrated Mr. Thomas.

COWLEY SECURES ORIENTAL BERTH

Chief Steward of S.S. President Grant Leaving for Japan as Passenger Saturday

When the Admiral Liner President Grant leaves for the Orient next Saturday evening, Chief Steward and Jay P. Cowley will be aboard, not in the capacity of chief steward but rather as a cabin passenger. The senior official who is well known to hosts of Pacific travelers is going out to Tokyo to be catered at the New Imperial Hotel in the Japanese capital. He will be followed in two months by Mrs. Cowley who is now in Seattle. "Jay P." as he is popularly known, has been in the service of the Admiral Liner for many years and has sailed in every service maintained by the company—coastwise, Alaska, and trans-Pacific. His ready wit and genial personality have endeared him to all with whom he has come in contact and he will be followed by the good wishes of many on this side of the Pacific.

The New Imperial Hotel is regarded as one of the wonder places of the Orient. It is not a large hotel as modern hostels go, having but 250 rooms, it has already cost \$5,000,000 and it is understood that huge expenditures are yet contemplated. Nearly all the stock is held by the Japanese Royal Family and the hotel was constructed to express to the world the admiration of the Japanese. One of the foremost architects in America spent four years in Tokyo supervising its construction. The Prince of Wales during his visit occupied the hotel. It was set aside by the Royal Family for the exclusive use of His Royal Highness and his entourage.

"Lee Kow Boat."

Nobody has previously discerned in the smiling countenance of Chief Steward Cowley the features of "Lee Kow" but this process of evolution by this officer has been nothing more than a reversion to type, and nowadays the President Grant is known to the Prince of Wales during his visit occupied the hotel. It was set aside by the Royal Family for the exclusive use of His Royal Highness and his entourage.

It happened in this wise: Regardless of color, creed or race, class of transportation or any other consideration, Cowley has made it a fixed principle of his stewardship that a passenger is entitled to everything he pays for and a "kick" from a poor celestial in the steerage means as much to him as a complaint emanating from the deck saloon.

Rumor has it that there have been times that Oriental waiters in every line of the Orient have been known to favor some of their compatriots in the steerage at the expense of others, in consideration of their largesse. "Lee Kow" has at all times kept a keen eye on this end of the interior economy of his ship with the result that he always disembarks a faithful host of the good wishes of Orientals at the other end.

Wing, a returning Chinese traveler was so gratified at Cowley's solicitation for the comfort of his compatriots and his fellow countrymen in the "back end" of the boat that when he reached his home in the interior of China on a recent visit, he placarded the district at his own expense with exhortations to all and sundry to travel by the "Cowley boat." But Chinese characters did not interest themselves in "Cowley" and so Wing got the next best thing to it and made it into "Lee Kow" with the result that on the return trip the stevedores' complaint was somewhat perplexed at the insistence with which they were called upon to assure their Oriental passengers that this was beyond cavil, the "Lee Kow boat."

Frequently Cowley's waiters would place on the deck a small copy of the Chinese papers which he took no notice of. But as they came more copiously he called upon his "Number One" to interpret the clipping. It was then that he learned that his fame had spread to the back woods of China as Lee Kow and also explained the increased loyalty which he got from Oriental passengers when he assured them that he was the Lee Kow they were looking for.

Even now, many of Cowley's Oriental boosters firmly believe that somewhere "way back" the Cowley family tree is rooted in Chinese soil but that from generations ago, being in the new world he has come to look like a foreigner.

GOVERNMENT CRAFT CARRY MUCH COAL

British Anthracite Moving in Canadian Bottoms

Five C.G.M.M. ships were scheduled to sail from British ports during August, says Canadian Railway and Marine World, with approximately 22,500 tons of British anthracite coal, as follows: Canadian Conqueror, from Swansea, Aug. 17, with 4,000 tons for Montreal; Canadian Otter, from Swansea, Aug. 26, with 2,500 tons for Montreal; Canadian Pioneer, from the River Mersey, Aug. 28, with 7,000 tons for Montreal, Quebec, or Three Rivers; Canadian Volunteer, from Swansea, Aug. 29, with 2,000 tons for Montreal, and Canadian Farmer, from the River Mersey, Aug. 31, with 7,000 tons for Montreal, Quebec or Three Rivers. The date of the Canadian Pioneer's sailing may be interfered with, owing to repairs necessitated by a collision with an iceberg in Belle Isle Strait at the end of July.

EMPEROR OF AUSTRALIA

IS TOTAL WRECK

St. John's, Nfld., Sept. 12.—The schooner Home, of the Reid Newfoundland fleet, went ashore early yesterday on the Labrador Coast and will be a total wreck, according to meagre reports here to-day.

Shipping Man Optimistic Over Volume of North Coast Trade

Seattle, Sept. 12.—H. C. Caneleau, Pacific Coast general manager for the Luckenbach Steamship Company in Seattle on one of his periodical visits, to-day expressed himself as pleased with the volume of business handled at Puget Sound ports and with the progress in re-landings place 1, which is to be occupied October 1 by the Luckenbach service.

When the steamship Edward Luckenbach leaves Puget Sound next week she is to go directly to Philadelphia via the Panama Canal.

PRaises GEN. WOOD FOR REORGANIZATION OF PHILIPPINES

Engineer Describes Chaos Existing When Soldier Returned to Islands

Arriving from Manila aboard the Admiral liner President Jefferson, George A. Valk, of Pullman, Wash., gives a vivid picture of conditions existing in the Philippine Islands and the reorganizations instituted by General Leonard Wood in the two years of his governorship.

The Philippine independence delegation came back from Washington just before he left the islands, and they are having a pretty hard time convincing their compatriots that they "improved the position." They had years of office and prey nearly wrecked the finances of the islands, the Filipino politician being one smart man at placing all his relatives upon the Government payroll.

"When General Wood arrived in the islands in October, 1920, the peso was bearing an eighteen per cent. discount. To-day it is practically par. That tells the whole story," said Mr. Valk, who is a construction engineer and has lately been superintending the installation of electric works at water nearly 350,000 acres of Luzon and a smaller area in Mindanao.

"General Wood put a stop to practices which had made any one who was in the National Bank, such as loaning 10,000,000 pesos on land worth 3,000,000 and paying 1,000,000 pesos commission for the favor. Also the Governor insisted that relatives were put off the payrolls as quickly as the little brown brother had put them on. That is how the Philippines are getting back to prosperity."

C. E. E. USHER

newly appointed General Passenger Traffic Manager of the Canadian Pacific Railway, who was in Victoria last week. He is an Ontarian, 45 years of age, and has been in railway service for more than 40 years, joining the Canadian Pacific staff in 1889.

C. B. FOSTER

now Passenger Manager of the Canadian Pacific Railway, with headquarters at Montreal, has for nine years held the post of Assistant Passenger Traffic Manager, Eastern lines. He joined the Canadian Pacific staff in 1891 at twenty years of age, and has worked through all the grades of the passenger service, being stationed at Vancouver for two years ending 1910.

Worry is interest paid on trouble before it becomes due.

ST. LEGER STAKES SET FOR TO-MORROW

Ramus, Winner of French Derby, Is Favorite in Last Classic of Flat Season

May Settle Question as to Which Is Best Three-Year-Old in Great Britain

London, Sept. 12.—Following is the latest betting on the St. Leger, which will be run to-morrow:

8 to 1 against Ramus, 100 to 15 against Fred Power taken and offered; 10 to 1 against Siluria; 100 to 8 against Preston Grange and Diligence, offered; 100 to 5 against Coreyrian; 20 to 1 against Backwood and Ceylonese, taken and offered; 20 to 1 against Tanglewood, offered; 100 to 15 against Buck's Hussar, taken and offered.

London, Sept. 12.—With the running of the St. Leger Stakes at Doncaster on Wednesday the last of the five classics for three-year-olds that feature the flat racing season in England will have passed into turf history, and another milestone in the oldest of the races that are run over the flat in this country will have been passed.

Not only is the St. Leger the oldest of these great races that have played such a prominent part in the development of the English thoroughbred, but falling as it does in September, the "marcas month," it is considered a better test of the three-year-olds than either the Derby or the Two Thousand Guineas. The course at Doncaster is admittedly superior to that at Epsom, and in September the fillies are presumably at their best. In the earlier classics they are very frequently out of sorts, more or less uncertain in their performance, and meet with little success in the Derby and Two Thousand, but they usually do much better in the St. Leger.

This year the St. Leger has the appearance of being a most open affair. Lord Woolavington's colt, Captain Cuttle, the winner of the Derby, and by no means the least of the best colts of the year, will not make his appearance on Wednesday as it was found impossible to give him the work necessary to prepare him and his entry was struck out. Captain Cuttle was succeeded in public favor by Lord Astor's colt Tamar, who ran second to the Captain in the Derby. Tamar, in the absence of Captain Cuttle, this month suffered an injury to one of his legs and will not go to the post. Attention then centred on Lord Queensberry's colt, Lord, who was the winner of the Two Thousand Guineas at Newmarket early in May.

May Not Decide Best Horse.

The great question is whether St. Louis, who won the Two Thousand Guineas, with Tamar no nearer than eighth, can stay the St. Leger course—308 yards short of two miles—and whether, if he cannot, whether any other colt, Welsh Spar, has anything like sufficient speed. The latter, in June, won the mile and a half Hardwicke Stakes at Ascot, which has been carried off by some of the most famous horses in turf history—by Ormond on two occasions. St. Louis did little work for weeks following his Newmarket victory, but at the middle of last month was undergoing preparation for the Doncaster classic. On hard ground St. Louis has to be tenderly treated, but of late conditions have been much to his liking and in his trials has been going well. Welsh Spar early this month met with a minor mishap, so that the St. Leger will be a contest between Captain Cuttle, Tamar, and St. Louis's ability to go the distance a matter of conjecture, the winner may appear from an unexpected quarter. The St. Leger may produce a great horse for winner but it is more likely the Leger this year will not be an important factor in deciding the oft-asked question "which is the best three-year-old of the season?"

Ramus, the winner of the French Derby this year, will be seen in Wednesday's classic. The French horse is a proved stayer and is being seriously considered.

Introduced 200 Years Ago.

It is well over two centuries since horse racing was first introduced at Doncaster, the corporation in 1702 voting four guineas a year towards a plate. A few years later—1716—the Town Plate was established by the same authority. Half a century later, a very important period in the history of the English thoroughbred was ushered in, when the first of the great three-year-old races was instituted in 1776 by Colonel St. Leger, who resided at Parkhill, near Doncaster. On September 24 of that year, during the Doncaster Races, which took place annually in the Autumn, at his suggestion a sweepstake of 25 guineas each for three-year-old colts and fillies was run over a two mile course. For the first St. Leger there were only six competitors, and in the following year there were twelve subscribers and ten starters. In 1778, in compliment to the founder, and at the suggestion of the Marquis of Rockingham, the race was named the St. Leger Stakes. The stakes were increased in 1827 to 50 sovereigns each, and the weights have been raised from time to time to keep pace with the modern requirements. When the nominations for this year's race were closed in November of 1920, 327 colts and fillies had been entered.

In addition to the stakes of 50 sovereigns each, or five sovereigns only if declared by the last Tuesday in March of last year, four thousand sovereigns are added to the purse. The St. Leger last year, which was won by Lord Londonderry's chestnut colt Polemarch, was valued at approximately \$25,000. If there are ten starters in tomorrow's race, the gross value of the prize will be approximately \$55,000, of which the owner of the second

Youth Is Now Being Served in Golf as in All Other Sports

EUGENE SARAZEN

A little while ago middle-aged men used to be the best golfers but lately the youngsters, just entering their twenties have been cutting high capers on the greens and fairways. This season witnessed three notable triumphs by youths over the veterans. Gene Sarazen won both the U. S. open and U. S. professional golf titles from a field of veterans from Great Britain, United States and Australia. Last Saturday Jesse Sweetser captured the U. S. amateur golf championship. Sarazen and Sweetser are both twenty-one years of age. It all goes to show that youth must be served. The old masters of golf are now forced to witness displays by mere youngsters that surpass anything they could do in their palmiest days.

horse will receive \$2,000 and the third \$1,000. Assuming the winner is a horse bred by his owner, the latter will receive \$51,500, but if the present St. Leger is not the breeder, the latter is to receive \$2,500.

Favorite Has Failed Lately.

There were thirty runners in the Derby and in all probability there will be more than ten in the St. Leger. Owners of horses engaged may well take courage from the result of recent contests and give the opportunity to those that have half a chance. Ignoring, as the Doncaster people do, the four substitute races run at Newmarket during the war, the favorite has failed in the last eight contests for the St. Leger. This state of things is all the more remarkable because in the preceding sequence of eight St. Leger winners only two favorites were beaten. The race at Doncaster has not been won by a favorite since Bayardo's year, 1909. Night Hawk and Polemarch, the winners in 1912 and 1921, respectively, were both quoted at odds of 50 to 1 against. Tracery won in 1912 at odds of 8 to 1 against, Black Jester in 1914 at odds of 40 to 1 against, Keynote at 100 to 1 against in 1915, and Calligula at 100 to 1 against in 1920.

VANCOUVER RACING

Vancouver, Sept. 12.—Setting her own pace for the entire mile and a half, Sadie won the Vancouver Cup at Hastings Park yesterday afternoon in two minutes and thirty-eight seconds. The favorite, Green Mint, was rated all the first mile and when the time came for him to make his move flattened out completely. Nellie Harper ran second with an eight-length margin over Prince Direct, who was third. Nellie Harper paid \$120 for place. There was a big crowd on this final day of the races.

First race, six furlongs—1, Cascade, \$4.40, \$2.20, \$2.70; 2, Overstep, \$5.40, \$2.50; 3, Double Van, \$5.70. Time, 1:18.

Second race, six and one-half furlongs—1, Honest George, \$6.35, \$4.10, \$3.50; 2, Florence Park, \$9.55, \$4.50; 3, Eugenia K, \$4.05. Time, 1:25.

Third race, one mile and seventy yards—1, Nebraska Lad, \$5.30, \$3.65, \$2.85; 2, Lady Small, \$5.50, \$3.45; 3, Dover Junia, \$2.75. Time, 1:50.

Fourth race, one mile and one-sixteenth—1, Deckhand, \$6.10, \$3.50, \$3.20; 2, Cigale, \$7.50, \$4.40; 3, Lorena Moss, \$3.25. Time, 1:50 4-5.

Fifth race, one mile and one-half—1, Sample, \$5.50, \$4.60, \$2.80; 2, Nellie Harper, \$19.90, \$5.85; 3, Prince Direct, \$2.75. Time, 2:38.

Sixth race, five furlongs—1, Broilack, \$9.05, \$5.95, \$4.20; 2, Muriel's Pet, \$4.50, \$3.25; 3, Ermita, \$2.15. Time, 59 3-5.

Seventh race, about five furlongs—1, Clyde Weaver, \$5.20, \$4.20, \$3.75; 2, Armador Valley, \$19.65, \$6.95; 3, Meteor, \$4.30. Time, 59 2-5.

Soccer Team To Tour.

Toronto, Sept. 11.—During the last week in September and first week in October the University of Toronto senior soccer team will visit the United States and compete against some of the best amateur teams there.

The first game will be against Princeton, October 3.

BADE RUTH GOES ON BIG HITTING SPREE

Cracked Two Homers and Two Doubles Against Athletics; Giants Go Ahead

New York, Sept. 12.—Four games are scheduled for to-day in the major leagues. The Tigers clash with the Browns in St. Louis and Cleveland meets the White Sox in Boston in the American League. In the National League Pittsburgh plays in Boston, while the Cardinals play in Philadelphia with the Phillies.

With Babe Ruth hitting two homers and two doubles yesterday, the Yankees had no difficulty in defeating the Athletics 3-1.

Babe's homerun total has now reached thirty-one. He is six behind Ken Williams.

St. Louis maintained its position one and a half games behind New York, by winning from Detroit 5-4.

New York Nationals increased their lead over Pittsburgh by 5½ games by taking a double-header yesterday from Boston. Washington defeated Boston 12-3 in the other major-league contest.

"REDHEAD" BREAKS UP
KID MC COY'S NINTH
CHANCE TO BE HAPPY

Los Angeles, Sept. 12.—Kid McCoy's ninth romance is wrecked and Mrs. Jacqueline McDowell, who came here from Baltimore with the announced purpose of becoming his partner for life, has returned to her home in the East. This is according to the admission of Kid McCoy himself, whose real name is written Norman Selby on the now useless marriage license which he and Mrs. McDowell obtained here several days ago. A telegram from a feminine admirer who signed herself "Redhead" accidentally discovered in the prospective bridegroom's pocket is said to have delivered the knockout to the ex-pugilist's wedding plans.

THOMPSON WINS TITLE

Weehauk Park, Newark, N. J., Sept. 12.—G. Harrison Thompson, 1921 all-round champion of America, became the National decathlon titleholder yesterday by a margin of less than 100 points over the total of Harold M. Osborne, of the Illinois Athletic Club. Each was first in four events.

The title was in doubt in the final lap of the 1,500 metre race, the closing event of the programme. To win the title Osborne had to beat Thompson by at least 25 points. He succeeded in winning the event, but was only 11 seconds ahead of Thompson at the tape.

Thompson took the 100 metres flat, the shot put, the discus and the 110 metre hurdles. Osborne was victorious in the running high and the broad jump, the javelin throw and the 1,500 metres race.

Hoop Artists Are Beginning to Talk

Meeting of City Senior Basketball League Called For To-morrow Evening at J. B. A. A.; Four Teams Expected In First Division, Winners to Play For B. C. Title; Intermediate Division Also to Be Operated; Want Start Oct. 1

Despite the fact that the fine weather is still hanging on the most of the Summer sports have ceased to hold sway and the followers of the Winter pastimes are beginning to organize and make ready for an early start. The rugby and soccer bodies have held their initial meeting and are now advertising for entries so that schedules may be drafted and the season started. The basketball clan is now out with an announcement that an organization meeting will be held to-morrow evening at 8 o'clock at the J. B. A. A.

Last Winter an effort was made to launch a Senior City Basketball League, but the scheme was abandoned owing to the late-

ness of the season. The promoters decided that they would start good and early this season, and without question this is the earliest date in a decade or so that the hoop game has been talked of. It is expected that the league will go over with a swing and a bang this year.

Get Chance At Dominion Title.

It is proposed to have four teams in the Senior Division, the winners of which will compete with the Vancouver champions for the British Columbia championship. A plan has been mooted for the organization of a Dominion Basketball Association, which will control the sport from coast to coast and arrange for play-off for the Canadian title on the same lines as the Connaught Cup series for the football championship and the Allan Cup for the amateur hockey championship.

Basketball has leaped back into public favor since the war. Every club on the continent reports a scarcity of floors for the various teams. In Victoria last year the Sunday School League was the big light in basketball and no less than 35 teams competed for the various titles.

Entries In To-morrow.

Entries for the proposed City Basketball League must be made at the meeting to be held to-morrow night. The admission fee for the senior league will be \$2.50. The senior league will foster an intermediate division, the entrance fee for which will be \$5. All city basketball clubs and any outside clubs are invited to send delegates to the meeting and engage in the discussion. The constitution and by-laws have already been drafted and approved.

It is hoped to get the senior league under way by October 1. If the teams are ready to meet their entries to-morrow night they will be no trouble in achieving this object. One or two additional meetings will be held before the league finally gets started. Any additional information can be secured from Jim Dakers, president of the league, or Tom Roberts, secretary of the J. B. A. A.

Willie Had to Play

Even the redoubtable William Johnston, of San Francisco, former champion, and picked by many to be the champion of the first, second, third and fourth rounds, was defeated by Francis T. Hunter, of New Rochelle, New York, had to play five of the list of Philadelphia, and R. Norrie Lawrence, of Boston. The score was 7-9, 6-3, 3-6, 6-3, 6-3.

Willie had to play

Wilson Washburn, of New York, long listed high among the ranking tennis players, had one bad set which he lost to C. M. Charest, of Baltimore, and had difficulty in winning the second set. The score was 4-6, 9-7, 6-0, 6-4.

The foreign players all won their matches. Manuel Alonso, speediest of the Spaniards, defeated the Brooklyn veteran, 6-2, 6-1, 6-3.

Patterson, James O. Anderson and Pat O'Hara Wood, of the Australian Davis Cup team, Zeno Shimidzu, of Japan, and Tilden, Robert Kinsey, a brother of Howard, Wallace J. Johnson, of Philadelphia, and R. Norris Williams II, of Boston, all won their matches with ease.

Auzzies Beat Youngsters

James C. Anderson, of the Australian cup team, defeated Lucien B. Williams, of Yale University, intercollegiate champion, 6-4, 6-2, 6-4.

G. L. Patterson, of the Australian Davis Cup team, defeated W. W. Ingraham, of Providence, joint holder of the national junior doubles title.

Wm. T. Tilden II, national champion, defeated Lyman L. Tremaine, Westfield, N. J., 6-2, 6-4, 6-1.

Pat O'Hara Wood was the third member of the Australian Davis Cup team to win his match yesterday, defeating Willie W. Davis, of San Francisco, 6-2, 6-4, 6-4.

Vincent Richards, the Yonkers, N. Y. youth, who made the American Davis Cup team this year, disposed of Carl Fischer, of Coynwyd, Penn., a former University of Pennsylvania star, 6-2, 6-4, 6-1.

Of to-day's matches those scheduled between Tilden and O'Hara Wood, Patterson and Hunter, Bill Johnston and Howard Kinsey, J. O. Anderson and Robert Kinsey, Wallace Johnson and Shimidzu, and Manuel Alonso and Washburn promise to be the most interesting.

BUFF DEFENDS TITLE
AGAINST ORIENTAL
BATTLER TO-NIGHT

New York, Sept. 12.—Johnny Buff, flyweight champion of the United States, and Pancho Villa, flyweight and bantamweight champion of the Orient, will meet in a 15-round bout to a decision here to-night.

AGAIN ANNOUNCES
HER INTENTION TO
QUIT TENNIS GAME

SUZANNE LENGLEN

Paris, Sept. 12.—Suzanne Lenglen played her last singles tennis tournament matches, she told friends to-day upon her return to Paris from Le Touquet, where she experienced a recurrence of the heart trouble, to which she has been subject recently.

She has not lost a set this season. Her decision, unless she changes her mind meantime, means that she will not defend her world's title at Wimbledon in 1923.

AMERICAN LEAGUE

OLD-TIMERS WIN

Defeated National Leaguers by 28-7 in Benefit Game; All Old-stagers Out

Boston, Sept. 11.—Twenty thousand fans saw an all-star American League team of old-timers defeat a similar team recruited from old National League stars, 28 to 7, at Braves Field yesterday afternoon. The game was sponsored by the Boston Post and the net receipts go to the children's hospital.

Jimmy Collins, one-time brilliant third baseman for the Red Sox, was captain of the American League team, and Fred Tenney, Boston National first sacker of two decades back, was director of the other team.

Jimmy pitched the first two innings for the Collins team, against Charley Kid Nichols, and honors were with Young. The play and hitting of Freddy Parent, shortstop for the winners, was a feature as was the infighting of Captain Collins, Bill Bradley and Larry Lajoie.

Comedy was supplied by Nick Altrock.

Bobby Lowe, great Boston National infielder, was given a big reception when he entered the game in a late inning and singled to centre field off Altrock.

Score: Americans.....28 38 0 Nationals.....7 19 2

Batteries: Young—Fennehill, Dineen, O'Brien, Ray Collins, Altrock and Carrigan, Farrell, Madden, Lake, Madden, Nichols, Klobedanz, Chesbro, Ted Lewis and Merritt, Archer and Bergen.

Umpires: Stafford and Emale.

American Association. Milwaukee, 6; St. Paul, 7. Kansas City, 1; Minneapolis, 2.

Western League. St. Joseph, 6; Tulsa, 5. Omaha, 1; Denver, 0. Sioux City, 5; Des Moines, 4.

Get a Copy of Our Game Law Booklet for 1922-23

It is just off the press—a bigger, better more complete booklet than we have ever issued before.

Here are some of the features:

- An understandable synopsis of the Game Regulations for 1922-23.
- A map showing the lines of the E. & N. Land Grant.
- Time table of stage lines.
- How to resuscitate a drowning person.
- Antidote for poisoning.
- A record of amateur sports in Victoria for the year.

OLD COUNTRY FOOTBALL GOOD SCORES MADE AT TRAP TOURNAY

London, Sept. 12.—Following are yesterday's English football results:

First Division. Oldham 4-3, Bolton 1-1.

Third Division. Southern Section. Alderley 1-1, South End 1-1. Brentford 1, Queen's Park 3.

Rugby. Coventry 0, Plymouth Albion 6. Northern Union. Leeds 7, York 7.

COLWOOD LADIES TO STAGE COMPETITIONS

The regular monthly medal competition of the ladies of the Colwood Golf and Country Club will be held on Thursday, September 14.

A ladies' knock-out handicap competition will be held at Colwood for a prize presented by their captain. The entrance list will close Sunday, September 17. The draw will be made and published in the "Colonist" and "Times" on Wednesday, September 20, whereupon play will commence.

All matches must be finished by October 31. The ordinary match-play rules will govern all play in this competition.

The captain hopes all lady members will compete for this prize. A list will be started at the Club House for the purpose, or entries may be made by telephoning 441.

RAIN HALTS OPENING OF TOURNAMENT FOR LADIES' GOLF TITLE

Toronto, Sept. 12.—Clear skies and a distinctly Autumn flavor in the air were the weather conditions at the opening this morning of the ladies' golf tournament for the championship of Canada.

The opening round was scheduled for yesterday, but the heavy rains caused a postponement.

COAFFEE MAKES EAST
DOFF THEIR CADDIES

Toronto, Sept. 12.—The Toronto Star says: "Hats off to Cyril Coaffee, of Winnipeg, the Canadian champion printer. He did not equal the 9-3-5 seconds record made at Calgary, August 12, but he did 9-9-10 seconds over a clay track and against the wind, when he won the Invitation Hundred at the Canadian National Exhibition sports Saturday. He was only officially credited with ten flat, but he actually did 9-9-10."

"When Coaffee rambled home a easy winner in the Invitation Hundred, beating Manny Lochnicht, the Buffalo champion, two yards, and Ed Ponton, of Broadway Y.M.C.A., ex-champion, three yards, thirty-eight expert timers clocked his progress. Eight of them gave the Western flash ten seconds flat, two gave him 9-4-5 seconds and three men who were holding 'tenth' watches caught him in 9-9-10 seconds."

"After a consultation, chief timer Frank Scott, of Buffalo, gave him ten seconds flat, but there is small doubt, had all the timers been equipped with 'tenth' watches, he would have been given 9-9-10."

HAMPTON, FORMER ASTON
VILLA PLAYER, DROPS

London, Sept. 12.—(Canadian Press Cable)—Harry Hampton, who became famous as a football player while playing centre forward with Aston Villa, has signed on for Newport County, a Third Division Club.

AMUSEMENTS TO-DAY
Capitol—"The Bonded Woman."
Dominion—"Nice People."
Columbia—"Without Fear."
Royal Victoria—"Sonny."

Every angle of South Sea Island life is presented in "The Bonded Woman," Betty Compson's latest Paramount starring feature, now playing at Capitol Theatre. Some authors and globe-trotters maintain that the South Pacific is an idyllic paradise of love and languor, while others, using the same examples, say that the islands are full of immorality and disease. In the picture, John Dowers, the leading man, goes to one island and finds all the fifth girls and diversion that he's looking for. Then Miss Compson, as the heroine, comes along and takes him to another island—an uninhabited one, however—and reforms him completely. So it seems to be more a matter of inclination than of latitude.

The scenario of "The Bonded Woman" was prepared by Albert S. LeVino, and Philip H. Rosen directed. William de Mille has struck the keynote of to-day most happily in "Nice People," which comes to the Dominion Theatre week. The modern jazz spirit, which pervades our times as well as the possible remedy therefor, are clearly and most entertainingly depicted. Without preaching in the least, the picture demonstrates that the girls and boys of to-day have too much leisure for indulgence in what may be easily developed into harmful social relationships. The theme back of it stands out clearly throughout without intruding itself to the detriment of the story. Wallace Reid's role presents him in the light of a good samaritan, his mental outlook changed of its possible previous acceptance of such things as the public accepts, as a result of the great war. Bebe Daniels expresses the product of the jazz age flawlessly and her experience proves that those who accept freedom up to a given point will turn upon anyone who oversteps that point. Conrad Nagel is a man of the same

ADVANCEMENT MADE IN DAIRY SECTION

Eggs Advance While Butter Awaits New Zealand Imports

Twice in the last two days the quotations on eggs have been advanced on the retail market and both are due to the fact that the supply of eggs is getting low. The chickens are up the moulting season now and the egg production is very meagre while the pullet eggs are few and the standard of size very small. Advancing five cents yesterday they were once again pushed forward another two cents to-day attaining a high point of 47 cents a dozen. Another week is given before the storage eggs are introduced on the market. Storage this year was not extensive but reasonable enough to meet any requirements of local demand. Butter, it was stated, would remain about the same until the arrival of the New Zealand product on the market. The prices of eggs would fluctuate it was stated. As to what effect the imported product would have on the market is yet to be revealed. The prices are being waited on the New Zealand supply. Their quotations in all events will probably be an important factor in the arranging of the prices on local stock. The market conditions in the Antipodes have not yet been heard of, but it is expected that the earliest date for New Zealand butter to arrive here will be six weeks' time. Then it will be known which way the butter will fluctuate.

Feed prices denoted a change to-day showing in many cases a downward trend in prices but this is only a reaction on account of the harvest season. As yet it is unsafe to predict whether the general trend will be an upward or downward one. Standard flour is down 25 cents and commanding a price of \$2.00 for a 48-pound sack, while wheat number two reduced four dollars. Oats, crushed oats, bran, scratch feed, and shorts are all down two dollars. Timothy Hay, however, is up a point, the trend being on the incline, it was advanced two dollars on the ton. The produced market offered very little of the spectacular in its trading this morning. Plums, it was stated, is hard to get rid of. Exceptionally low prices are offered on this commodity which is abundant on the market. Farmers are finding that they are having large quantities left on their hands. Peaches, the Freestone variety, is showing the preserving season at present with plenty of fruit. Preserving of this fruit is in big demand, it was stated. The quotations on the retail market have been revised as follows:

Vegetables	
New Beets, 6 lbs.	25
